Petition to the House of Commons in Parliament assembled, WHEREAS

Canadians are opposed to the over-regulation of Natural Health Products in Canada as it is against Canadian's rights and freedoms.

- Given that on July 6, 2022, Health Canada published new labelling requirements under the *Natural Health Products Regulations* (NHPR) that are set to come into practice in 2025;
- Given that on May 3, 2023 the Minister of Agriculture and Agri-Food has approved changes to Canadian Food Inspection Agency regulatory guidance that allow product developers to assess the safety of their own (Genetically Modified) GM products, seeds and foods without government oversight;
- Given the actions of the government in supporting foreign corporate Agenda21, Agenda2030 and Agenda2050 attacks of Canadian's rights and freedoms under the Charter of Rights and Freedoms and the Canadian Bill of Rights through unlawful legislation;
- Given the intention of regulating further label requirements is claimed to ensure information is presented in a comprehensive manner – whereas this information is already displayed on current labels - this is non other than an attack on Natural Health Products in Canada;
- Given that an independent Economic Impact Study it was found that this forced unnecessary excessive labeling regulation of the NHP industry – would result in 75% of brands saying there is a very high chance they will need to pull their product from the market;
- Given that the government of Canada has been infiltrated by members of foreign entities such as the World Economic Forum and are pushing a UN (United Nations) foreign private corporate agenda to set up an unelected fascist New World Order – the push to promote GM products and stifle NHP is evident;
- Given that the MRNA (a genetically modified synthetic protein) is a widely used technology in Gene-Editing;
- Given that MRNA as well as GMO have been found to modify DNA of humans, animals, plants and insects;
- Given that the Canadian government has failed to hold Biotech MRNA and GMO producing corporations accountable for possible future genetic harm with their lack of oversight putting the health of Canadians and the environment at risk;
- The head of the WEF, Klaus Schwab and author of the book "Covid-19: The Great Reset" writes about a private foreign corporate plan for a New World Order – which involves populations forced consumption of GM products and eating insects:
- Canadian's have a right to access and consume NHP of our choice and to avoid GM products and insect products – the deliberate over-regulation of NHP is an attack on Canadian's rights and freedoms;
- Canadians are not willing to hand over our health, rights and freedoms to foreign interests – regardless of any such foreign corporate Agenda and want the government to cancel the new Health Canada Natural Health Products labeling requirements;
- Canadian Citizens want a public statement from the Federal government that they will uphold the rights and freedoms of Canadians regardless of Agenda21, Agenda2030, and Agenda2050 forthright;

We, the undersigned citizens and residents of Canada call upon the House of Commons and the Senate to:

1. Desist implementing the private foreign corporate UN, WEF, Klaus Schwab attack on NHP in Canada;

*2. Call upon the **Government of Canada**, to publicly commit to uphold The Charter of Rights and Freedoms and the Canadian Bill of Rights;*

*3. Call upon all **Members of Parliament** to follow Canadian Law and represent your Constituents instead of foreign corporate private interest;*

Canadians feel our government has been following a foreign corporate unconstitutional agenda and demand the laws of Canada be followed instead.

Dated this _____ day of _____, 20__.
